Thinking of ways that I can turn on you bitches
Thinking of ways that I can stunt on you bitches
The sex is hypnotic, he think he fuckin' two bitches
He under my spell so he not fuckin' you bitches
I switch up my hair, feel like he got some new bitches
Quit all that cappin' and all that fuckin' loose lippin'
(Can you pass me my cup real quick?)

He like shawty you so adventurous, never had a bitch like you
I'm like, "Shit, don't mention it!", 32 flavors
So many styles the way I'm switchin' it, young! black! and gift
ed-ed!
She sweet, then she sour, got that sex drive
So I right him for an hour, not for the weak
Can't give this pussy to no coward
(I'm cool as hell and I'm bad as fuck!)
(I'm cool as hell and I'm bad as fuck!)
(I'm cool as hell and I'm bad as fuck!)

I got a Gemini bitch by my side
She always switch it up but she never switch sides
Got these hoes mad when she steal the spotlight
She just walk in the room and she don't even try
