

In The Air

Kari Faux

Smoke is all in my lungs, but my judgment's not that cloudy
Too high to get over on me, you lost ya mind, think I found it
Goddamn it, I feel outstandin', screens fallin', watchin' Titanic
You still takin' no for a answer? I'd rather take my chances, so
Loop the instrumental, get some things up off my mental
Pass the fire in a cypher, only smokin' with my kinfolk
Whip paid off but I push it like a rental
Baby bro just banged my line and asked me what its hittin' fo
(So what you say?)

Let's put one in the air (One in the air)
Let's put one in the air (One in the air)
Let's put one in the air (One in the air)
You say you don't give a fuck but I know you really care
(I know you really care)

So high, so high, so high, so high, so high
I think I caught a nosebleed from the elevation
So high, so high, so high, so high, so high
I think I may be stuck up here, me and my expectations
So high, so high, so high, so high, so high (Let's put one in the air)
I think I caught a nosebleed from the elevation
(Let's put one in the air)
So high, so high, so high, so high, so high (Let's put one in the air)
I think I may be stuck up here, me and my expectations
(Let's put one in the air)

Slicin' like a hot knife through butter
Rally stripes, I burn rubber
My loud pipes sound like thunder
That Chevrolet American muscle
Floatin' with a bad bitch
I'll love your music like magic
Double my hustle, records on spin
Freaks under the cover, Spinal Records
Lil static, few scratches but we stay on the beat (On beat)
Too much money in the streets for us to sleep (Never sleep)
100 dollar joints drip
Flickin' them lavish ashes all over this bitch (All over this bitch)
Persian rugs, California drugs (Yeah, yeah)
My car was assembled in Great Britain (Great Britain, yeah, yeah)
My Rollie got diamonds for each minute (Each minute)
They been watchin' my pen, it's like television (Television)
(East Side)

Let's put one in the air (One in the air)
(At all times)
Let's put one in the air (One in the air)
Let's put one in the air (One in the air)
You say you don't give a fuck but I know you really care (I know you really care)

So high, so high, so high, so high, so high
I think I caught a nosebleed from the elevation
So high, so high, so high, so high, so high
I think I may be stuck up here, me and my expectations
So high, so high, so high, so high, so high (Let's put one in the air)

I think I caught a nosebleed from the elevation
(Let's put one in the air)
So high, so high, so high, so high, so high (Let's put one in the air)
I think I may be stuck up here, me and my expectations
(Let's put one in the air)

Come ride with me, catch a vibe with me
Then slide with me, get high with me
Ride with me, catch a vibe with me
Then slide with me, get high with me
Ride with me, catch a vibe with me (Let's put one in the air)
Get high with me, then slide with me (Let's put one in the air)
Ride with me, get high with me (Let's put one in the air)
Catch a vibe with me, then slide with me (Let's put one in the air)
Ride with me, oh you can ride the beat (One in the air)
Ride with me, but you can't ride for free (One in the air)
Ride with me, come slide with me (One in the air)
Get high with me, then catch a vibe with me (One in the air)
Ride with me, oh you can ride the beat (One in the air)
Ride with me, oh you can't ride for free (One in the air)
Ride with me, come slide with me (One in the air)
Ride with me, but you can't ride for free (One in the air)
