(Only in the night time)
I know that you gon' wanna fuck and smoke
Sip the drank and pop the pill and puff some mo'
(It feels like the right time)
I know it feels just like a celebration
Got energy around us, make you feel elevated
(Only in the night time)
I know that you gon' wanna fuck and smoke
Sip the drank and pop the pill and puff some mo'
(It feels like the right time)
I know it feels just like a celebration
Got energy around us, make you feel elevated
