I'm so glad I can let my hair down
Le-let my hair down
Let my hair down
I'm so glad I can let my hair down
Let my hair down
Le-let my hair down

Suffocating
You're so suffocating
You're so damn frustrating
All my friends say to get away from you
Out at 3 am, they heal the pain
You can't hit me up
No, it ain't the same
Turning off my phone
Now you got away
Light another one
80 to the face

I-I'm so glad I can let my hair down
Le-let my hair down
Let my hair down
I-I'm so glad I can let my hair down
Let my hair down
Le-let my hair down

Made it through your love
My tears don't fall, and I waited for you
Don't say we made up, I just couldn't be alone
I take a moment
Just maybe, I wouldn't act so shady
If I had the space you shoulda gave me
Listen to your niggas, what do they say?
Now you gotta watch my heart vacate
Realest, I realized, you are not givin' up
Now a bitch don't give a fuck
Now a bitch back in these streets
All my bitches hype me up, hype me up

I'm so glad I can let my hair down
Le-let my hair down
Let my hair down
I'm so glad I can let my hair down
Let my hair down
Le-let my hair down
