Call Me

Kari Kimmel

Yeah
Whenever you need someone to talk to
I wanna be the one you can run to make things right
You know you can call me
Whenever you feel down or too lonely
You need a friend, someone who will come through everytime You
know you can call me

You know you're not alone
I wanna let you know
Everybody hurts sometimes
Hearts are made of glass but the hurt won't last, it will be al
right
Sometimes we're strong, sometimes we crumble, I'll catch you wh
en you fall

Whenever you need someone to talk to
I wanna be the one you can run to make things right
You know you can call me
Whenever you feel down or too lonely
You need a friend, someone who will come through everytime You
know you can call me

A brother in the rain, shelter from the pain, let me be your sa
fe place
I won't disappear, I'll always be here, when the love breaks
Sometimes we're strong, sometimes we crumble, I'll catch you wh
en you fall

Whenever you need someone to talk to
I wanna be the one you can run to make things right
You know you can call me
Whenever you feel down or too lonely
You need a friend, someone who will come through everytime You
know you can call me

I know how it feels to be broken hearted, fallin' apart is true
But you are the one that brought me back, now it's my turn to b
e there for you

Anytime you want now, you can call me
Anytime you need a friend, all you do is just say when
Yeah, anytime that you like day or night call my number

Whenever you need someone to talk to
I wanna be the one you can run to make things right
You know you can call me
Whenever you feel down or too lonely

You need a friend, someone who will come through everytime You
know you can call me
