

One Foot out the Door

Kari Kimmel

My momma raised me right
Get a feeling, gotta fly
Better than be left here all alone
I know that some will say
Love'll never come way
If I never let my heart get broke

Doo doo doo doo
Doo doo doo doo
Doo doo doo doo
Doo doo doo doo

I'm one foot out the door
Before you even get the chance to fool me
I'm one foot out the door
Before the tables turn and you can screw me
I'm always gonna be a step ahead but you'll never know
Unless you try to take me down
Now you have been warned
I'm one foot out the door

I may seem innocent
But I always come to win
You're never gonna take me by surprise
I'll sense it right away
If you're thinking you might stray
You'll be the one who's left alone cry

Doo doo doo doo
Doo doo doo doo
Doo doo doo doo
Doo doo doo doo

I'm one foot out the door
Before you even get the chance to fool me
I'm one foot out the door
Before the tables turn and you can screw me
I'm always gonna be a step ahead but you'll never know
Unless you try to take me down
Now you have been warned
I'm one foot out the door

I gotta warn ya
I'm one foot out the door
I gotta warn ya
I'm one foot out the door
I gotta warn ya
I'm one foot out the door
I gotta warn ya
I'm one foot out the door

I'm one foot out the door
Before you even get the chance to fool me
I'm one foot out the door
Before the tables turn and you can screw me
I'm always gonna be a step ahead but you'll never know
Unless you try to take me down

Now you have been warned
I'm one foot out the door
