

Fryngies

Karin Park

They are eating me up with their big jaws and there's a million
snakes on the cold floor

I can feel their sticky breath in my neck and from a hole in the
ground I hear a big roar

Legs, don't fail me stumble or fall I need you to stand it all
Hips and waist don't leave me to crawl Show them like I was a dancer

Step right, step Step right, step The only thing I have in this
world is the road where I choose to go so Step right, step

I am playing cards with a shit hand but I can tell a story like
an old man I walk with a bleeding knee and a desperate mind I'm
pushing forward to the bold land

Legs, don't fail me stumble or fall I need you to stand it all
Hips and waist don't leave me to crawl Show them like I was a dancer

Step right, step Step right, step The only thing I have in this
world is the road where I choose to go so Step right, step
