

Shine

Karin Park

Flashing lights, the sirens again
You've been all night high
And now you're coming down, ha ha
We sail our ships, sometimes they collide
You just hold on tight
Hold on tight to me, ha ha

You can be as broke as you want
You can be as strong as you like
It can be the darkest night
I'll never let you out of sight
Even if there's no way home
Even if there's nowhere to go
Even when you know it's all your fault

Let my love shine
Into the darkness of your mind
You're lost in a forest
And it feels like no way out
I shine so bright
Let my love shine

Boy, you wear your heart on your sleeve
I see in your eye
The storm surrounding me, ha ha

You can be as broke as you want
You can be as strong as you like
It can be the darkest night
I'll never let you out of sight
Even if there's no way home
Even if there's nowhere to go
Even when you know it's all your fault

Let my love shine
Into the darkness of your mind
You're lost in a forest
And it feels like no way out
I shine so bright

Let my love shine
Into the blackness of your eyes
At night when you wake up
And your heart is running wild
You'll be alright

Let my love shine
Into the darkness of your mind
You're lost in a forest
And it feels like no way out
I shine so bright

Let my love shine
Into the blackness of your eyes
At night when you wake up
And your heart is running wild
You'll be alright

Let my love shine
