

# Masterpiece

Karina Pasian

I was always caught in a landslide  
I couldn't hang tight  
You watched me fall apart  
But I fell completed and broke in pieces  
When it burned like no one wanted me, I knew

That all I really need is a misfit like me  
To complete this masterpiece  
Perfectly foolish and sweet  
You'll complete this masterpiece

These flaws are not weapons  
They won't reach my heart  
Go on and aim in the dark  
When it burned like no one wanted me, I knew  
That there's someone out there feeling like I do

'Cause all I really need is a misfit like me  
To complete this masterpiece  
Perfectly foolish and sweet  
You'll complete this masterpiece

When I see you  
I'll know it's really you  
And we'll connect on the fact  
That you're just as messed up too  
And we'll laugh  
'Cause they'll never understand  
But too bad  
We won't ever give a damn  
When it burned like no one wanted me, I knew  
I was waiting for the one, I think it's you

You are all I need, a misfit like me  
You complete this masterpiece  
Perfectly foolish and sweet  
Finally it's a masterpiece  
Oooh, oooh
