

# Perfectly Different

Karina

A moment of clarity  
Appeared in my life  
They day you came along and opened up my eyes  
And although I wasn't looking I came to find  
The perfect reflection of what love should look like

Cause I'm alright when I'm with you  
Don't have to change when I'm with you  
We're both unusually both undeniably  
We're just perfectly different  
Others on the outside looking in  
They'd be confused cause they don't get it  
We ain't ashamed to be ourselves  
Cause we are unexplainably most definitely  
We just happened to be perfectly different

They see two different people I only see one  
What they may see as abstract we feels a work of art  
Our imagination makes others wonder  
But what I wonder is how you found the key to my heart

Cause I'm alright when I'm with you  
Don't have to change when I'm with you  
We're both unusually both undeniably  
We're perfectly different  
Others on the outside looking in  
They'd be confused cause they don't get it  
We ain't ashamed to be ourselves  
Cause we are unexplainably most definitely  
We just happened to be perfectly different  
Perfectly different

They don't have to understand our love  
We're fine the way we are

Cause I'm alright when I'm with you  
Don't have to change when I'm with you  
We're both unusually both undeniably  
We're just perfectly different  
Others on the outside looking in  
They'd be confused cause they don't get it  
We ain't ashamed to be ourselves  
We are unexplainably most definitely  
We just happened to be...
