

Gimme Your Love

Karise Eden

This world has trouble all around us
Sin is everywhere we go
Baby I'm so glad I found us
I will never let you go

If we ever have a problem
You know we'd always work it out
Yeah we'll find a way to solve it
'Cause that's what love's all about

I wanna feel all the pain if it rains on your shoulders
And I want to dance every dance just the way that you want me to
And I want to love every day with you over and over
Cause you give me your love, your love, your love

Now as we're getting older
Our love grows stronger every day
It just keeps on getting better

It'll always be this way

I wanna feel all the pain if it rains on your shoulders
And I want to dance every dance just the way that you want me to
And I want to love every day with you over and over
Cause you give me your love, your love, your love, yeah

And I wanna feel all the pain if it rains on your shoulders
And I want to dance every dance just the way that you want me to
And I want to love every day with you over and over
Cause you give me your love, your love, your love
Yeah you give me your love, your love, your love, oh
