

# Badman

Karl Wolf

She call me a badman, yeah

We're rocking girl, everybody put your hands up  
Let me see you drop it down on the dance floor  
Wine on me like this  
I just want a piece of you right quick

So come on, won't you move your body? Move your body  
Pretty little thing on fleek  
Gonna make you answer who's your daddy? Who's your daddy?  
Come on, put that work on me, let me tell you

Yeah, she wants a real badman  
That'll treat her and that'll understand  
She wants a real badman  
No need for friendship, I just need a one night stand  
She got me, she got me feeling  
Like I'm a badman in her eyes  
She got me, she got me feeling  
Like I'm a badman in her eyes  
She wants it, she wants it  
Said she wants a real badman  
She wants it  
Like I'm a badman in her eyes

We in the telly, skip the drinks, no more talking  
Cuff your hands over your head, let me clock it  
Grind on me right quick  
I just wanna play with you like this

So come on, won't you move your body? Move your body  
Sexy little thing on fleek  
Gonna make you answer who's your daddy? Who's your daddy?  
Come on, let the reigns on me, let me tell you

Yeah, she wants a real badman  
That'll treat her and that'll understand  
She wants a real badman  
No need for friendship, I just need a one night stand  
She got me, she got me feeling  
Like I'm a badman in her eyes  
She got me, she got me feeling  
Like I'm a badman in her eyes  
She wants it, she wants it  
Said she wants a real badman  
She wants it  
Like I'm a badman in her eyes  
She wants it, she wants it  
Said she wants a real badman  
She wants it  
Like I'm a badman in her eyes

I see you baby girl, you make me wanna holla, yeah  
I wasn't probably coming with the mandem  
I love it when you whine up on my body, yeah  
Slow motion, whine up on me, yeah  
[?], when she see me

She wanna work, work, work like RiRi  
She not gon' let me go, she needs the feeling dearly  
And in the bedroom, girl, you have it with me

Yeah, she wants a real badman  
That'll treat her and that'll understand  
She wants a real badman  
No need for friendship, I just need a one night stand  
She got me, she got me feeling  
Like I'm a badman in her eyes  
She got me, she got me feeling  
Like I'm a badman in her eyes  
She wants it, she wants it  
Said she wants a real badman  
She wants it  
Like I'm a badman in her eyes  
She wants it, she wants it  
Said she wants a real badman  
She wants it  
Like I'm a badman in her eyes
