

## Found You

Karl Wolf

Why am I nauseous?  
Why am I hanging on to you?  
I may be dreamin'  
Maybe I'm havin' a moment (Maybe I'm havin' a moment)  
Why am I nauseous?  
I wanna see the sun come up  
Something is comin' (Something is comin')

Feels like a drug  
I've been down that road  
Not goin' back there this time  
Forget everything you know  
I can't believe it's summer  
And it's so amazin' that I found you  
And it's so amazin' that I found you

Found you  
(So amazin' that I) Found you

Why was I hidin'  
From something that's so beautiful?  
Ivory keys, yeah  
Keep me up 'til the mornin'  
I've been sedated  
Numbing out the pain inside  
Thought I deserved it

Feels like a drug  
I've been down that road  
Not goin' back there this time  
Forget everything you know  
I can't believe it's summer  
And it's so amazin' that I found you  
And it's so amazin' that I found you

Found you  
(So amazin' that I) Found you  
Found you  
(So amazin' that I) Found you
