

Let The Music Play All Night

Karl Wolf

I'll take ya, to a place yeah, where the music play all night
Oh, oh yeah, where the music play all night
(Won't wait all night, gonna take you)
Let the music play all night

I been dancin' with my shadow, oh, mother
And I hope that you can follow, it's innocent
(Let the music play all night)
Just because you don't know who you are
But you shine just like a star, baby (baby)
It's a secret love affair, cuz it feels like you ain't there
And this game you've been playin' ain't fair

So let me take ya, to a place yeah, where the music play all night
Oh, oh yeah, where the music play all night
(Won't wait all night, gonna take you)
Let the music play all night
Let the music play
(The music play all night)
(The music play all night)
(The music play all night)
(And let the music play all night, hey!)

I see the vision of tomorrow in your eyes
But my heart is due with sorrow, let's make this right
(Let the music play all night)
Just because you don't know who you are
But you shine just like a star, baby (baby)
It's a secret love affair, cuz it feels like you ain't there
And this game you've been playin' ain't fair

So let me take ya, to a place yeah, where the music play all night
Oh, oh yeah, where the music play all night
(Won't wait all night, gonna take you)
Let the music play all night
Let the music play
(The music play all night)
(The music play all night)
(The music play all night)
(And let the music play all night, hey!)

Now been in and out of relationships
I've had all the month to she'd
Now I feel that good, you're it
Baby, don't misunderstand me
I give you what you want, girl
And I'll take you out the world
Buy me - something, burn in ten stars hotel
Can't unfold you, baby let yo love go
I got a first class flight, about to take ya to paradise

So let me take ya, to a place yeah, where the music play all night
Oh, oh yeah, where the music play all night
(Won't wait all night, gonna take you)
Let the music play all night
Let the music play
(The music play all night)

(The music play all night)
(The music play all night)
(And let the music play all night, hey!)
