

The Export

Karl Wolf

I hear of all these footsteps in the hallway
Am I dreaming? Is it morning?
Sounds light up the sky, flashing
Blink paradise

Can I ask you why
Do we leave ourselves to worry?
Is it cause the soldiers watch by?
How can we see where the tops for us now?
I wanted to love ya
But had to see the better live
Taking shelter in the dark night
We just couldn't do it anymore

Got me feeling like an export
Do I belong without a home?
Export
Do I belong without a home?
Export
Do I belong without a home?
Export
Got me feeling like an export

Cause we all a little different
Take it easy, only human, it ain't treason
Let's walk through the fire, flashing
Help take me high

Can I ask you why
Do we leave ourselves to worry?
Deceptions and lies
How can we see where the tops for us now?
I wanted to love ya
But had to see the better live
Taking shelter in the dark night
We just couldn't do it anymore

Got me feeling like an export
Do I belong without a home?
Export
Do I belong without a home?
Export
Do I belong without a home?
Export
Got me feeling like an export

Feeling like an export, export
Export, export

Got me feeling like an export
Do I belong without a home?
Export
Do I belong without a home?
Export
Do I belong without a home?
Export
Got me feeling like an export

Export, export, read all about it
Export
Export, export, read all about it
Got me feeling like an export
Export
Got me feeling like an export
Export, export, read all about it
Export
Export, export, read all about it
Got me feeling like an export
Export
Got me feeling like an export
