

Everybody's Home Tonight

Karla Bonoff

It is a special night
And the stars are all shining bright
And in a dream he comes
And he carries the child's delight

Yes it's been another year
At Christmas time it all comes clear
Have no fear
'Cause everybody's home tonight
And you know everything's all right

The story came to me
Of a man who could really see
And the truth of life he gave to the children of Galilee

It had been another year
At Christmas time it all comes clear
There was fear but though he died one day
All the love in his heart still stays

It is a special night
And the stars are all shining bright
And in a dream he comes and carries the child's delight

Yes it's been another year
At Christmas time it all comes clear
Have no fear
'Cause everybody's home tonight
And you know everything's all right

'Cause everybody's home tonight
And you know everything's all right
