

## Just Walk Away

Karla Bonoff

One life with one love  
Are the things dreams are made of  
Two hearts a world apart  
The music stopped before the dance could start

So goodbye, now please don't cry  
For now, all the words have been spoken  
Time heals the heart that's broken  
My love just walk away

We played those long days  
You thought that we saw it the same way  
You love as blind and if I seem unkind  
Oh I wish for you that I could change my mind
