

Don't Tell Me Now

Karmah

Let me tell you what is wrong with this
Let me tell you how it's strong for me

Hey I cannot believe in what you sayin' bro
Know me for so long, how can u be serious?
How can you just say I'll be ok with someone else
How can you just say that's a game with no rules
You said this „real love“ stuff it's all bullshit
But you're not tryin to look inside of me
Let me tell you buddy there is something more than that
Just something maybe you can't understand

Don't tell me now that you will be fine
Isn't it just sad enough for me and you
To run away from what we care

Don't tell me now
You'll just keep on going on
Cause behind this silly mask
I can see your pain

Let me tell you what is wrong with this
Let me tell you how it's strong for me

And...Now I know for sure from deep inside my heart
That this blessed love will never ever part
Don't care what you fool say...that I'm a kinda freak
Don't u see my head's twirlin'n' I can barely speak
This ain't because I'm weak, and I got no spine
If I got to stick to her to feel fine
Let me tell you something about love you've never felt
Just something maybe you can't understand
