

Can't Take It with You

Karmakanic

Can't take it with you
To the place you go
Can't take it with you
To the place you're going

Money, money makes any day sunny
Work your way up to icy altitudes
Get to the top til you start to cough
A modern King Midas with no time off

Money, money sweeter than honey
A coaster ride with its ups and downs
You hit the top but don't wanna stop
Enough is enough is enough is enough

Make a buck, gamble five
Make your luck, buy sell buy
Cannot take it, cannot take it with you
Get your share before it's gone
Don't care who you're stepping on
Cannot take it, cannot take it with you

All in awe of the paper tiger
Love for sale if you have a buyer
Friend of foe, money won't know
Can't spend a dime when you're six feet below

Money, money cunning and evil
Money makes money and the rich get richer
Eye the prize, you're the bait and switcher
It all falls down when you need to ditcher

Make a buck, gamble five
Make your luck, buy sell buy
Cannot take it, cannot take it with you
Get your share before it's gone
Don't care who you're stepping on
Cannot take it, cannot take it with you

Can't take it with you
To the place you go
Can't take it with you
To the place you're going

Money, money makes any day sunny
Work your way up to icy altitudes
Get to the top til you start to cough
A modern King Midas with no time off

Money, money sweeter than honey
A coaster ride with its ups and downs
You hit the top but don't wanna stop
Enough is enough is enough is enough

Make a buck, gamble five
Make your luck, buy sell buy
Cannot take it, cannot take it with you

Get your share before it's gone
Don't care who you're stepping on
Cannot take it, cannot take it with you
