

There's Nothing Wrong with the World

Karmakanic

There's nothing wrong with the world today
Rivers overflowing
Snowy treetops in Bombay

There's nothing wrong with the sky tonight
Just white doves leaving vapour trails
In the shape of a pentagram

Leave it now
Da pacem cordium
Leave it now
Da pacem cordium

There's nothing wrong with the news, you know
They learn us to tell perfect lies
Til truth exists no more

There's nothing wrong with our God
Witness to our sacred wars
And bloodshed for oil

Leave it now
Da pacem cordium
Leave it now
Da pacem cordium
You better leave it now

There's nothing wrong with your health, you'll see
Said the doctor, it's called life
It cuts you like a knife

There's nothing wrong with me, I swear
I'm ticking like a time bomb
Gonna blow to bits inside

Leave it now
Da pacem cordium
Leave it now
Da pacem cordium
You better leave it now
