

Beside You

Karyn White

Like a star in the sky
That shines so bright
You guide me, I'm content to be beside you
Yet I'm free as a bird
That can fly so high
You guide me, I'm content to be beside you

Not in front or behind you
But beside to remind you
That we both need one another oh yeah

Just to lean and depend on
For to cry and rely on totally
Beside you is where I will be

Through the storm of your life
Some will love you and cast you aside
But not me, I'm content to be
Beside you

Everyday and every way
For you, baby you, you you
Just for one minute, for one hour
Oh-
Baby can't you see
I will always be beside you
