Carpe Diem Everything's gonna be alright

Hey y'all, I'm doing fine Told you I'd be alright, on my way to better days I'll stand and say it loud I'm beautiful and proud I have what matters, I am beautifully made

You see me now about to get it in It's a picture perfect brand new day I've got no fear, watch me win It's time for me to seize the day, come on let's seize the day

Today's the day that I won't let slip by I raise my hands up to the sky Seize the day, seize the day, seize the day

I'm feeling good inside, I made up my mind Living my life for me, everything's gonna be alright The time is not a shame for me, myself and I I'm a star in my life

You see me now about to get it in It's a picture perfect brand new day I've got no fear, watch me win It's time for me to seize the day, come on let's seize the day

Today's the day that I won't let slip by I raise my hands up to the sky Seize the day, seize the day, seize the day

Today's the day that I won't let slip me by I raise my hands up to the sky Seize the day, seize the day, seize the day

Everything's gonna be alright, come on y'all Yeah, it's gonna be alright

Today's the day that I won't let slip me by I raise my hands up to the sky Seize the day, seize the day, seize the day

Today's the day that I won't let slip me by I raise my hands up to the sky Seize the day, seize the day, seize the day

Everything's gonna be alright Carpe Diem
