

## Butcher Blues

Kasabian

Coco believe me  
I'm a lonesome man  
I wanna get stoned and trip some wires  
I wanna get myself underground  
I said that, you must believe me  
When I say I'm fightin the dead  
Lyn low across the evening  
Can you see the lumps on my head?  
But I got these voices that just keep singin out  
Sayin..  
"I just cant stop losin' control"  
"I just cant stop losin' control"  
Said that..."I just cant stop losin' control"

Trench wander pavement  
Tryin to score some love  
In the corner of the city  
Matching faces with fees  
I guess that you never been here by the look upon ya face  
Standing with all the whores and cannibals  
In the censored race

Singin out..  
"I just cant stop losin' control"  
"I just cant stop losin' control"  
Said that...  
"I just cant stop losin' control"  
"I just cant stop losin' control"

[2x]

I got these voices....
