

# Happiness

Kasabian

I will follow you now wherever you go  
I'll be with you now, stick around forever  
And I never wanna see those tears again, no, no  
When will you realize that I ain't that tough?

Save what you got, keep it safe, don't ever stop  
There's nothing more, it's nothing less  
It's all we got, it's happiness, it's happiness  
Ain't that right? Ain't that right?

And I will have a thousand dreams of how I care for you  
Through these careless dreams, look into the future  
And I never wanna see those tears again, no, no  
When will you realize that you make me breath out?

Save what you got, keep it safe, don't never stop  
It's nothing more, it's nothing less  
It's all we got, it's happiness, happiness  
Oh, it's always been you, it's always been you

And I know you got to make it right  
Handing out my feelings on these goods are too loud  
Oh and it don't matter, yeah I pay my dues  
And you know there's one thing that keeps us together  
It's gonna keep us together now, now, now, now

Save what you got, keep it safe, don't ever stop  
It's nothing more, it's nothing less  
It's all I got, it's happiness, happiness
