

LETTING GO

Kasabian

Got my eyes set on you
But you keep on slipping away
You can't seem to catch a break

I know it's hard believing
Better days are yet to come
You got time to work it out

Even if your head's not right
It'll be alright
If you just start
Letting go

Tomorrow is another day
It'll be okay
If you just start
Letting go

You just start letting go
You just start letting go

I can see you falling
Let your mind just drift away
Are you floating out in space?

Other worlds are waking
You don't have to runaway
From the answers that you need
Yeah

Even if your head's not right
It'll be alright
If you just start
Letting go

Tomorrow is another day
It'll be okay
If you just start
Letting go

Just start letting go
Yeah, yeah, yeah
Are you feeling better now?
Yeah, yeah, yeah
Just got better now

I remember what you told me that the devil said
I was waiting on another living in your head
But you know you've got it coming, got it coming right
But you feel alive to it, you feel alright
From now on

Even if your head's not right
It'll be alright
If you just start
Letting go

Tomorrow is another day
It'll be okay
If you just start
Letting go
