

ROCKET FUEL

Kasabian

Like a feather pick me up
Go into the party, wanna fuck it up
I'm tripping out all the wall lights
Never seen nobody like it all night
Overbite secret handshake
I was lost but now I'm making earthquake

That's how I'll remember you - underneath
That's how I'll remember you - underneath
Underneath, underneath, underneath, underneath

You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel

Fuel, fuel, fuel, fuel, fuel, fuel, you're my rocket fuel
Fuel, fuel, fuel, fuel, fuel, fuel, you're my rocket fuel

And I know I drive you crazy
Always got you asking why why why
I can help it that I'm lazy
I've been floating getting high, high, high
I'm not asking you to save me
I'm just looking to the sky, sky sky
We can go together baby
I can teach you how to fly

Like a feather pick me up
Go into the party, wanna fuck it up
I'm tripping out all the wall lights
Never seen nobody like it all night
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel
You're my rocket fuel

Fuel, fuel, fuel, fuel, fuel, fuel, you're my rocket fuel
Fuel, fuel, fuel, fuel, fuel, fuel, you're my rocket fuel

And I know I drive you crazy
Always got you asking why why why
I'm not asking you to save me
I can teach you how to fly, fly, fly

Like a feather pick me up
Going to the party, wanna fuck it up
Overbite secret handshake
I was lost but now I'm making earthquake

That's how I'll remember you - underneath
That's how I'll remember you - underneath
