Running Battle

Kasabian

All lyin across the ground
Try not to make no sound
When two men goin break ya down
Two men goin break ya down, I breathe
All lyin across the ground
Try not to make no sound
When two men goin break ya down, I said
Two men goin break ya down, I breathe

I take down what I need
Cause you know I need to breathe
I'm tired of walking on another plane
Another plane cause I feel insane, I...
Step back to get to you
Cut back I'm fallin through
Another day I feel the same
I'm cutting and I'm bleeding here with you

All lyin across the ground
Try not to make no sound
When two men goin break ya down
Two men goin break ya down, I breathe

All lyin across the ground
Try not to make no sound
When two men goin break ya down, I said
Two men goin break ya down, I breathe

So keep those voices down
Even if you dont amke no sound
A thousand voices makin all the mistakes
The fire escapes and this code must break
I...
Step back to get to you
Cut back I'm fallin through
Another day I feel the same
I'm cuttting and I'm bleeding here with you

All lyin across the ground
Try not to make no sound
When two men goin break ya down, I said
Two men goin break ya down, I breathe
