

THE WALL

Kasabian

I caught a bad one, I can barely hold on
And now the pizza man won't come
Close the window, get the box set on the stream
And now my angels they won't come

I've got a lot of love to give
It's just a simple way to live

When you hit the wall
As wide as it is tall
And how do we get here?
You know we always get here

Why'd you do it, why'd you have to lose control?
Well, I blame it on my heroes
Said a lot of things I know I will regret
That's the point of getting old

I'm sat in the departure lounge
Just waiting for the check, oh

When you hit the wall
As wide as it is tall
And how do we get here?
You know we always get here

Walk and then you crawl
I can break your fall
And how do we get here?
You know we always get here
You know we always get here
You know we always get here

Sing me a love song, I'm on my way now
Over the dark clouds inside my head

When you hit the wall
As wide as it is tall
And how do we get here?
You know we always get here

Walk and then you crawl (walk and then you crawl)
I can break your fall (I can break your fall)
And how do we get here?
You know we always get here
You know we always get here

You get back up
You get back up again
You get back up
You get back up again
You get back up
You get back up again
You get back up
You know we always get here

I caught a bad one, I can barely hold on

And now my angels sail away
