

I remember when my eyes were blue
Care for when I looked at you (you)
Like the world were laying at my feet
It was so easy
It was so easy

But I shifted colors
I'm on the road for long periods
Stay civil been longer
It was so easy
Living's so easy

I told myself
Travel to the place where I belong
I told myself
Find a way to get the
Back to all that matters

I remember how they used to say
Stay a child as long as you these two can
You're my garden nothing will change
It was so easy
Living's so easy

But I shifted colors
I'm on the road for long periods
Stay civil been longer
It was so easy
Livin' was so easy

I told myself
Travel to the place where I belong
I told myself
Find a way to get the
Back to all that matters

(Ooh)
(Back to myself)
(Back to myself)

Back to myself
Travel to the place where I belong
Back to myself
Find a way to get the
Back to all that matters
