

# Your Tempo

Kasbo

We can take it cool, got time for you  
Got time for two  
We can take it cool, got time for you

Someone said that you're stressed out lately  
Someone said  
Someone said that you're tired of chasing  
Well I am

And I've heard  
That you're sick of rushing, all the time  
It feels like we miss out  
What life's about

Let's take it cool  
Got time for you  
For you

We could go in your tempo, in your tempo (no hurry)  
We could do it fast, do it slow  
We could go in your tempo, in your tempo (no hurry)  
We could take it fast, take it slow

On the floor we could lie down baby  
Eye to eye  
Got some green and my lips are soft  
You wanna try

Cause I've heard  
That you're sick of rushing all the time  
So why don't we find out  
What life's about

We'll take it cool  
Got time for you  
For you

We could go in your tempo, in your tempo (no hurry)  
We could take it fast, take it slow  
We could go in your tempo, in your tempo (no hurry)  
We could take it fast, take it slow

We can take it cool, got time for you  
Got time for two  
We can take it cool, got time for you
