

13th Amendment

Kash Doll

Land of the free, in lies the home of the homeless
Too many die everyday all we really just want is
Freedom

Freedom

Freedom

That's what I want

Freedom

Freedom

That's what I want (Aw yeah, aw yeah)

I won't stop fighting until the day that I'm free

I won't stop fighting until the day that I'm free

I won't stop fighting until the day that I'm free

I won't stop fighting until the day that I'm free

Free at last, thanks to the 13th amendment

We thought this would be the one that would end it

But we still harassed, still mass incarcerations

So much for The Emancipation Proclamation

Oh, but be careful black man I know you eager to climb

Slavery is legal if you're convicted of a crime

When that crime that you committed probably don't fit the time

Have you building ships for NASA and they pay you a dime

A conspiracy they try to censor you when you speak

They can't hide behind the sheets so now they do you like Meek

Meanwhile you taking chances out here trying to survive

Yeah, not a lot has changed since 1865

But still they try to teach you that everybody's equal

Until you up for the same job as white people

Just know until we walk into the gates of the kingdom

We gone stand here united ready to fight for our freedom

Freedom

Freedom

That's what I want

Freedom

Freedom

That's what I want (Aw yeah, aw yeah)

I won't stop fighting until the day that I'm free

I won't stop fighting until the day that I'm free

I won't stop fighting until the day that I'm free

I won't stop fighting until the day that I'm free
