Kash Doll

No fuck niggas...  
Paid bitches...  
Made niggas...  
Paid bitches...

Don't touch, nigga, what the fuck, nigga? No fuck niggas (No fuck niggas)  
You mad bitches, but bad bitches fuck with bad bitches (Know you mad)  
If I fuck niggas, so what? Bitches, they made niggas (Real niggas)  
They call us hoes and bitches, so what, nigga? We paid bitches (Paid bitches  
)

Kash, there's only one of her  
Y'all don't even know what the cold streets done to her  
This is an obituary, servin' all customers  
Kinda like a cemetery, all these hoes under her  
Bitches ain't rappin' right, I'ma call the coroner  
Plus I got an appetite, hungry as a foreigner  
Step in the room, nobody be ignorin' her  
See a lil' ass, wanna see a lil' more of her  
But you can't fuck every nigga that you meet  
Bougie for the green, movie, preview  
Coochie, panties, Gucci, see through  
Poke it on out, let a little booty peek through  
Bitch, I'm in beast mode, like I got a cheat code  
And I'm from the street, ho  
Quick to let the heat blow  
Pussy like a hurricane, Florida, Puerto Rico  
Flow on Disney, wet, Nemo, uh

Whip it right and make him want the rock  
Trappin' hard, I'm right up on the block  
Pack the car and drive it to your spot  
Avatar, I got the bluest watch  
In my life, yeah, I done lost a lot  
Bitch, I get my money off the top  
Heard 'em say I wasn't gonna pop  
'Til they heard a couple hundred shots

Bet your mouth get wet when you see me too  
I know my alphabets, I'm on my P's and Q's  
Kash snap, this is season two  
I take your oxygen, I want no reason to  
I come from the dead zone  
Known for being violent  
Brown skin and redbones  
Niggas be so childish  
I shake it like a red nose  
Heaven when I ride it  
He only give me head though  
I don't let him get inside it, uh  
Kash reigns forever  
My shit just wetter, nigga, can't you tell her? Uh  
If a bitch ain't me, then she can't be better  
Money good, but I still hit a stain whatever  
But serve the trap  
You heard of that, the birds is patched  
You heard the clap, the dirt is packed

You get lowered in the Earth in fact  
We all turn to crack  
Now was it worth the scratch?  
I'm from the murder cap'

Whip it right and make him want the rock  
Trappin' hard, I'm right up on the block  
Pack the car and drive it to your spot  
Avatar, I got the bluest watch  
In my life, yeah, I done lost a lot  
Bitch, I get my money off the top  
Heard 'em say I wasn't gonna pop  
'Til they heard a couple hundred shots
