

Just A Phase

Kashmir

This is just a phase we've got to make another day the
one's will heal again
Walking on the stairs may seem a little hard to bear but
there will be an end
When we do it right I'll take you for a short line drive
and we don't have to talk

When you're there turn around and let me know

Send me to an isle when you see creatures in my smile
I'll do a better one
The easier it sounds the harder you get off the ground
you're like a setting sun
There's no time to explain we've got to catch an early
plain and we don't have to talk

When you're there turn around and let me know
When you're there turn around and let me know

When you're there turn around and let me know
When you're there turn around and let me know
When you're there turn around and let me know
