

☒Peace In The Heart

Kashmir

(Verse)

There's a hole in the sky
That she saw as we were walking by
I wonder if that's what you saw that's gone
And if it's anything left for me

Then we took the first train
To the opposite side of town
Got up on a street where nobody knows us
And then took off with no sign

(Chorus)

Remember when it was just me and you and time
When we're gonna sleep somewhere down along the line
Discussing our options on how to get some more wine
There was peace in the heart

(Verse)

This hole in the earth
And the truth lost between every word
I wonder if that's where our soul has gone
And if it will ever return

(Chorus)

Remember when it was just me and you and time
When we're gonna sleep somewhere down along the line
Discussing our options on how to get some more wine
There was peace in the heart

(Bridge)

And yes I'll try to go to sleep
And sing away the amber dream
And then if we would set 'em off
And there's no peace inside my heart

There's no peace in my heart
