

# Cherry Rose

Kashus Culpepper

How many nights do I have to lie awake thinking 'bout you in the dark?  
Slippin' outta that black dress into another man's arms  
He showers you with money  
But he don't make you feel less alone  
So you come on over to mine when you don't wanna go home

Cherry Rose  
I know you get caught up  
Twirlin' around in circles  
Spinnin' moonlight into gold  
Cherry Rose  
It's midnight in your garden  
When all the rest have fallen  
Tell me who you got to hold  
'Cause it goes on and on and on and on  
Cherry Rose

Mhm...

How many times are you gonna say you hate the way it feels?  
But the work is good, and the work pays money  
And the money pays the bills  
You talk about love and all it does is disappear  
Like it's a million miles away  
But if you want it, girl, it's right here

Cherry Rose  
I know you get caught up  
Twirlin' around in circles  
Spinnin' moonlight into gold  
Cherry Rose  
It's midnight in your garden  
When all the rest have fallen  
Tell me who you got to hold  
'Cause it goes on and on and on and on  
Cherry Rose

Well it's six a.m. when you walk in  
You never stay for long  
Well as long as I got you here  
I'll hold you till you're gone  
I'll hold you till you're gone  
Cherry Rose  
Cherry Rose

Cherry Rose  
I know you get caught up  
Twirlin' around in circles  
Spinnin' moonlight into gold  
Cherry Rose  
But it's midnight in your garden  
When all the rest have fallen  
Tell me who you got to hold  
'Cause it goes on and on and on and on  
And it goes on and on and on and on  
And it goes  
Cherry Rose
