

Is It True

Kashus Culpepper

Word getting 'round you been getting down with some other guy, other side of town

I been listening to all my friends, and here's what they say
You ain't nothing but a jezebel, maybe I didn't know you so well
It ain't been long but you're moving on so fast, it's like I'm
Chopped motherfucking liver served on a plate for dinner
I don't wanna believe it

Is it true, love
That you already found somebody new, love?
Is it real or is it just to get you through, love?
Isn't it the kind that lasts
Or just the kind that makes you kinda wanna come on back?
Is it true love?
Is it true love?

You coulda waited a little, damn, I even took ya to Alabam'
You met my momma, made me some promises that you couldn't keep
We were dancing with forever, heard you found someone better
I'm going crazy, tell me, baby

Is it true, love
That you already found somebody new, love?
Is it real or is it just to get you through, love?
Isn't it the kind that lasts
Or just the kind that makes you kinda wanna come on back?
Is it true love?
Is it true love?
Is it true love?

Is it true, are they lying?
Are you living while I'm dying, girl?
I'm dying to know

Is it true, love
That you already found somebody new, love?
Is it real or is it just to get you through, love?
Isn't it the kind that lasts
Or just the kind that makes you kinda wanna come on back?
Is it true, love
That you already found somebody new, love?
Is it real or is it just to get you through, love?
Isn't it the kind that lasts
Or just the kind that makes you kinda wanna come on back?
Is it true love?
Is it true love?
Is it true love?
