

## Atmosphere

Kaskade

When I was young, I would stand alone  
With visions of worlds that were all my own  
The lights in the sky weren't that far away  
Living in the vastness of outer space

All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere

All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere

When I was young I could hear the sound  
A melody pure and a rhythm loud  
Oh the sound took me away  
Carried through the vastness of outer space

All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere

All my life I've been a star  
Holding a light up in the dark  
While I try to keep clear  
Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere

Of all the waves in your atmosphere
