

## Avalanche

Kaskade

It hits me, an avalanche  
A flash freeze, never stood a chance  
On my own to learn the cold  
So far gone when you're in control  
Say what you want, I  
Say what you want, I

Say what you want, I

It hits me, an avalanche  
A flash freeze, never stood a chance  
So bury me, under your snow  
Under your (Ooh)  
(Ooh, ooh)

No light  
Both arms surrounded by old white  
Wrapped round, you going snow-blind  
Addicted to getting your first bite (Ooh)  
On my own to learn the cold  
So far gone when you're in control  
Say what you want, I

It hits me, an avalanche  
A flash freeze, never stood a chance  
So bury me, under your snow  
Under your (Ooh)  
(Ooh, ooh)  
Say what you want, I  
Say what you want, I

Say what you want, I
