

Beneath With Me

Kaskade

Can't escape
All the fire burning bright
Water still is rising
Throughout the long night

Come take my hand
And focus on the light down at the end
Say words to comfort me
We still have time for hope, that's all we need
Beneath with me
Beneath with me
Beneath with me

Morning grace
Enemies have come together
Miles have gone silent
In the arms of strangers

Come take my hand
And focus on the light down at the end
Say words to comfort me
We still have time for hope
That's all we need
Beneath with me
Beneath with me
Beneath with me
