

# Fakin It

Kaskade

It's funny how  
Everybody says you gotta figure it out  
Pull the veil  
Make the world said, a secret you'll never tell.

Got a curse that I cant kick  
Broken pieces I cant fix  
All I know now  
Is I know nothing now.

But maybe it's okay to be lost in your backyard  
Okay to wander woods in the dark  
Okay to be lost in your backyard  
Are we all just fakin' it?

Maybe it's okay to be lost in your backyard  
Okay to wander woods in the dark  
Lonely little terrified hearts  
Are we all just fakin' it?

Are we all just fakin' it, fakin' it?  
Are we all just fakin' it, fakin' it?  
Are we all just fakin' it, fakin' it?  
Are we all just fakin' it, fakin' it?

Diamonds and gold  
Cover me like skin over skeleton bones  
I chase the high  
Let the strangers soothe me like a lullaby.

Oh the desert mirage keeps  
Moving further out of reach  
All I know now is I know nothing now.

Maybe it's okay to be lost in your backyard  
Okay to wander woods in the dark  
Okay to be lost in your backyard  
Are we all just fakin' it?

Maybe it's okay to be lost in your backyard  
Okay to wander woods in the dark  
Lonely little terrified hearts  
Are we all just fakin' it?

Are we all just fakin' it, fakin' it?  
Are we all just fakin' it, fakin' it?  
Are we all just fakin' it, fakin' it?  
Are we all just fakin' it, fakin' it?
