

Gone

Kaskade

Stay, dance, put me on
Inside out, I'm gone
Secrets or a song
I keep my lips drawn

Once I might have thought that
Everybody wants what I want
Everyone will know my name
Now that I've heard the chorus
They've been here before us
Turn, don't throw it away

Don't throw it away
Don't throw it away
Don't throw it away
Now, don't throw it away
Don't throw it away

One chance, hear me out
Whispering a shout
I'm gone in a song
I keep my cover on

Once I might have thought that
Everybody wants what I want
Everyone will feel this way
It's what I want [?]
It's right here before us
Don't, don't walk away

Don't throw it away
Don't throw it away
Don't throw it away
Now, don't throw it away
Don't throw it away

I can't sing what I can say
I can't face you, look away
It's the only way you know
Where my head goes

(Don't throw it away) I can't sing what I can say
(Don't throw it away) I can't face you, look away
(Now, don't throw it away) It's the only way you know
(Don't throw it away) Where my head goes
