

Heaven Knows

Kaskade

These nights feel longer
Is that 'cause I'm far away from you?
Away from you
I can't see the colors
Is that 'cause I'm far away from you?
Away from you

When I close my eyes, I remember your face
I hear you in thunder, I feel you in rain
I walk through the fire to see you again
To see you again

'Cause Heaven knows that I'll be there
Heaven knows that I'll be there
'Cause Heaven knows that I'll be there
Heaven knows that I'll be there

I can't see the colors
Is that 'cause I'm far away from you?
Away from you

When I close my eyes, I remember your face
I hear you in thunder, I feel you in rain
I walk through the fire to see you again
To see you again

'Cause Heaven knows that I'll be there
Heaven knows that I'll be there
'Cause Heaven knows that I'll be there
Heaven knows that I'll be there
