

Hot Wheels

Kaskade

You got the caffeine, take it to go
Engine is ready, so let's hit the road
If you don't join me, I'll go on my own
With me, it's ride or die

So if you're in love with me, what you waiting for now?
Take a seat, where d'you wanna go now?
Take the wheel, we can roll the windows down, windows down

I'ma put you in my pocket, we can start real slow
All we need are hot wheels and an open road
Put you in my pocket, we can start real slow
All we need are hot wheels and I'm ready
Got an addiction to get away
I got an addiction to get away

No point in staying, I'm ready to bounce
Best way of living is here, in the now
Say something crazy, I'm begging, just once
With me, it's ride or die

So if you're in love with me, what you waiting for now?
Take a seat, where d'you wanna go now?
Take the wheel, we can roll the windows down, windows down

I'ma put you in my pocket, we can start real slow
All we need are hot wheels and an open road
Put you in my pocket, we can start real slow
All we need are hot wheels and I'm ready
Got an addiction to get away
I got an addiction to get away
