

# Love Like That

Kaskade

I'm irreplaceable  
My lust is highly flammable  
Losing faith in finding reasons  
To believe without believing  
My love wasn't yours to take  
Addicted to your sweet embrace  
And I've been watching waiting  
For the day, for you

Tell me how you love like that  
Say something you can't take back  
Make me think we can be saved  
When you love like that  
Tell me how you love like that  
Say something you can't take back  
And I know that the night is never gonna last  
I need a love like that  
I need a love like that

My love wasn't yours to take  
Addicted to your sweet embrace  
And I've been watching  
Waiting for the day for you

Tell me how you love like that  
Say something you can't take back  
Make me think we can be saved  
When you love like that  
Tell me how you love like that  
Say something you can't take back  
And I know that the night is never gonna last  
I need a love like that  
I need a love like that  
I need a love like that  
I need a love like that
