

# Missing You

Kaskade

I've seen your eyes in a million faces  
What else could I ever see but you?  
Tell me your heart is the only answer  
Tell me that you're feeling this way too

Tell me the only one  
That you've been missing  
Is the one missing you

I never thought I'd run  
But I made a mistake  
So let me come back to you

I've seen your eyes in a million faces  
What else could I ever see but you?  
Tell me your heart is the only answer  
Tell me that you're feeling this way too

Tell me the only one  
That you've been missing  
Is the one missing you.

I never thought I'd run  
But I made a mistake  
So let me come back to you

Tell me the only one  
That you've been missing  
Is the one missing you.

I never thought I'd run  
But I made a mistake  
So let me come back to you.
