

# My Distance

Kaskade

Seventeen, teenage dreams  
Said that we would run the world  
But the stop light town said hold you down  
Swore to you I'd make it out

Never thought you would take it hard  
Always thought you'd see me out  
Never thought you'd fall apart  
But I guess things are different now

I'll keep my distance  
From a distance  
I won't forget us, I feel the spaces  
I'll keep my distance

I'll keep my distance  
From a distance  
I won't forget us, I feel the spaces  
I'll keep my distance

Hear the sound of your voice  
And I can't help but react  
Now I'm gone, you moved on  
And you know we can't go back

Never thought you would take it hard  
Always thought you'd see me out  
Never thought you'd fall apart  
But I guess things are different now

I'll keep my distance  
From a distance  
I won't forget us, I feel the spaces  
I'll keep my distance

I'll keep my distance  
From a distance  
I won't forget us, I feel the spaces  
I'll keep my distance
