

## No One Else

Kaskade

I thought that I knew you better  
Turns out I don't  
I thought that you'd treat me better  
But I know you won't

Yeah, I told myself  
I would care for you  
When no one else would  
When no one else would  
That I'd hold you close  
And look after you  
When no one else would  
When no one else would

No one could love you better  
Now that I don't, I don't  
Thinking you'd like him better  
But I know you won't, you won't

Yeah, I told myself  
I would care for you  
When no one else would  
When no one else would  
That I'd hold you close  
And look after you  
When no one else would  
When no one else would

I've been holding onto you  
Forever, forever  
Yeah, I've been looking after you  
Forever, forever
