Swear you calm me in some way
Your words have never been so devious
The way you lay your hands on me
Connected to your energy
You take me to an open place
Where nothing is as real as solid touch
It's obvious, it's obvious, it's obvious
Swear you calm me in some way
Your words have never been so devious
The way you lay your hands on me
Connected to your energy
You take me to an open place
Where nothing is as real as solid touch
It's obvious, it's obvious, it's obvious
