

Play with Me

Kaskade

Caught you red-handed again
You took my heart and ran
But this game is rigged
And you'll never gonna let me win
When I think I've got the upper hand
You're always three moves ahead
Now that I'm looking back
I never even stood a chance

So you wanna play?
Step right up
So you wanna play with me?
So you wanna play?
Try your luck
So you wanna play?
Well, come play with me

So you're thinking on how this ends
That we wind up as friends
But before you leave
There's a card left up my sleeve
The ace I've yet to play
Lines I've yet to say
And when you're looking back
You never even stood a chance

So you wanna play?
Step right up
So you wanna play with me?
So you wanna play?
Try your luck
So you wanna play?

So you wanna play?
Step right up
So you wanna play with me?
So you wanna play?
Try your luck
So you wanna play?
Well, come play with me
