

# Save Me

Kaskade

Save me now  
I need to feel my feet on solid ground  
Save me now  
I need the sun to guide me through these clouds

Oh, is there a light in the dark  
'Cause I'm so ready to fall apart  
So save me now

Save me now  
Save me now

Save me now  
I need the sun to guide me through these clouds

Oh, is there a light in the dark  
'Cause I'm so ready to fall apart  
So save me now

So save me now  
So save me now
